Excelitas Technologies to Highlight OmniCure LED UV Curing Systems for Medical Device Manufacturers at MD&M Minneapolis

WHO: [Excelitas Technologies® Corp.](#), a leading industrial technology manufacturer focused on delivering innovative, market-driven photonic solutions, will showcase its broad offering of OmniCure® LED UV Curing Systems for medical device manufacturers at [MD&M Minneapolis](#).

WHAT: Expert OmniCure staff will be available in-person at the Excelitas exhibit to discuss its featured products, including:

- [OmniCure S2000 Elite Spot UV Curing System](#): Building on the heritage of its innovative OmniCure S2000 predecessor, Excelitas' next-generation OmniCure S2000 Elite Spot UV Curing System delivers new and enhanced features for greater versatility and best-in-class UV spot curing in a variety of manufacturing applications, including medical device assembly. Offering the highest reliability and quality for light curing adhesive processes, OmniCure S2000 Elite's enhanced productivity, precision and security redefine UV spot curing while enabling next level control and usability.
- [OmniCure LX500 LED Spot UV Curing System](#): Featuring up to four LED heads with up to 16W/cm² peak irradiance and proprietary feedback technology, the LX500 provides unmatched optical stability via Intelli-Lamp® LED technology for consistent and repeatable assembly of medical devices with lower costs. OmniCure LX500 is ideal for use in medical devices such as catheters, cannulas, endoscopes and syringes.
- [OmniCure AC Series LED Small and Large Area UV Curing Systems](#): OmniCure AC Series UV curing systems are offered in various configurations and include "P" versions with enhanced optics to optimize the dose for short working distances to support print applications. These air-cooled LED UV curing systems are designed with high-power LEDs and advanced front-end optics to deliver high peak irradiance for fast, even curing. OmniCure AC Series Small Area UV Curing Systems are designed for curing widths of less than or equal to 75 mm. OmniCure AC Series Large Area UV Curing Systems are designed for curing widths greater than 75mm.

WHEN: November 3 – November 4, 2021

WHERE: Minneapolis Convention Center, Minneapolis, MN
Excelitas Exhibit: Booth # 1931

###

About Excelitas Technologies

Excelitas Technologies® Corp. is a leading industrial technology manufacturer focused on delivering innovative, market-driven photonic solutions to meet the illumination, optical, optronic, sensing, detection and imaging needs of our OEM and end-user customers. Serving a vast

EXCELITAS

TECHNOLOGIES®

array of applications across biomedical, scientific, semiconductor, industrial manufacturing, safety, security, consumer products, defense and aerospace sectors, Excelitas stands committed to enabling our customers' success in their many various end-markets. Our team consists of more than 7,500 professionals working across North America, Europe and Asia, to serve customers worldwide.
